ROTHSCHILD BANK SYNDROME

USA Faces Disastrous Collision Between World Anarchy and World Order Envisioned by the Jews

Judaism died quietly in Spain toward the end of the Middle Ages. It was embalmed expertly by the Jewish Theologian Maimonides, who made a very pretty corpse of it. Oswald Spengler has described the death of Judaism wonderfully well in *THE DECLINE OF THE WEST*. After Maimonides, Judaism became frozen. It was incapable of any further development. This kind of Judaism exists to this day, but it is merely a fossil relic left over from ancient times. It is interesting, like the bones of the Piltdown man; but, like Piltdown man, it is long since extinct and is not a factor in world affairs.

What is called "Judaism" or "Zionism" today is something else entirely. It is a quite recent historical creation; and it is destined to be a short-lived affair. Modern Judaism is the creation of one single German-Jewish family, the Rothschilds; but the Rothschilds acted within the framework of German-Jewish culture. Present day Judaism is at least half German. It is heavily freighted with German mysticism. The modern Jews owe a great deal to the Germans. The German Jews are the real kingpins of World Jewry. The intellectual system devised by the Rothschild Bank was a strong one, which has held the Western World captive for a hundred years. If we would understand modern Jewry, we need waste no time studying the ancient Hebrew religion, which is a negligible factor in the picture. What we have today is "Rothschild Bank Judaism." So great has been the influence of this intellectual system, that we might almost say that we also have "Rothschild Bank Catholicism" and "Rothschild Bank Protestantism." What we really have had in recent historical times is an unbridled orgy of Mammon-worshipping. The Jews have been the high priests of the Mammon-cult; but the Protestants and Catholics have run them a close rat race on the road to the Temple of Mammon. The crux of the Jewish position in the world is not religion but wealth. Rothschild Bank Judaism has no secure roots in ancient Hebrew religion. In the historical sense, Rothschild Bank Judaism is a flash in the pan. There were Jews in the world before "Rothschild Bank Judaism" arose; there may possibly be Jews left in the world after it is gone, although their numbers quite certainly will be greatly reduced by factors which we shall presently discuss. It is important that we study "Rothschild Bank Judaism" in detail in order to understand the impact of the Jews upon world History.

It is important to understand that the Jews were never a factor of any importance in world history until the rise of the Rothschilds. The Christian mind tends to think of the Jews as having always been important. But in ancient times they were only a small tribe living at the eastern end of the Mediterranean. They were of no consequence to world history. The "Old Jews" reached their peak in Spain toward the end of the Middle Ages; but even in that context and at the very peak of their glory, they were only a minor regional people. Convert peoples, such as the Khazars, were also regional powers rather than world powers. The Jews, how-

These men who thought they died for patriotism actually died for the enrichment of cold-eyed schemers who risk nothing. Every battlefield is made uglier by the greed of men who never fight. Rothschild banks have financed both sides of every war. They have murdered 106,000,000 of God's humans in the 20th century alone.

In Flanders Field... WHY GREAT CAPITALISTS SUPPORT COMMUNISM

By FRED FARREL

*In Flanders fields the poppies grow
Between the crosses, row on row
That mark our place, and in the sky
The larks still bravely singing, fly
Scarce heard amid the guns below.*

*We are the Dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved, and were loved, and now we lie
In Flanders fields.*

*Take up our quarrel with the foe,
To you from failing hands we throw
The torch: be yours to hold it high!
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields.*

ever large they may sometimes have loomed in the Christian mind, were never anything except a minor gadfly in world history.

The Jew, as World - Power creature, is a creation, not of Father Abraham, but of the Rothschild Bank. This Jew is more German than Hebrew. He tends to be an unbeliever in religion; he either secularizes himself entirely or else turns his religion into an empty shell. Indeed, modern Judaism is much like seashells I sometimes find along the shore. The creature which originally created the beautiful shell is long since dead; now some slimy intruder, unable to create such a beautiful home for itself, has crept into the shell and nested there.

The intellectual system which developed around Rothschild Bank Judaism is a complex one. It found its ultimate expression in Marxism. Marxism was never a proletarian revolution; it was from the start a tool of the bankers, an instrument by which the power of great wealth was exercised. The Marxist parties and Marxist labor unions were always under the control of the great Capitalists. Thus the method of manipulating Labor was perfected. It is not only the Left Wing which thus is under Jewish Control, but also

(Continued on Page 2, Column 1)

The great Capitalists of New York are conducting a hell-for-leather campaign for a new Communist Revolution in Europe and Russia. The New York Times has become the real official organ of the New Left. *TIME* Magazine chimes in with laments about "Stalinism" and the "decline of Revolutionary Charisma" in Russia. *U.S. NEWS AND WORLD REPORT* was most explicit of all. An editorial in that magazine recently declared that "The Russian people should rise up and take their government into their own hands, as they did back in 1917." When the Capitalist press wages a campaign like this, we should forget the whole idea that American Capitalism represents an "anti-Communist" force in the world. The American Capitalists have always been secretly the principal backers of World Communism. Now they have come out into the open.

Why do the great Capitalists support Communism?

Not all Capitalists have always supported Communism. Two of the greatest of them fought it tooth and nail. Henry Ford fought it in America. Unhappily, Henry Ford never quite managed to put his basic ideas over to the wider American public. He had to fight the mass media, always under the control of Wall Street, just as he fought Wall Street for control of his own firm. The concepts he sought to promulgate involve complex problems of industrial technics which are largely beyond the ken of the ordinary man. The American people thought of Ford simply as the manufacturer of the "tin lizzie," the man who put America on wheels. His political concepts were never widely understood.

In Europe there was another industrialist who fought Communism. Gustav Krupp was

the Right Wing. Indeed, the Right and the Left revolves in orbit around the Rothschild Bank. This is the basis of modern Jewish power. It has made the Jews, for the first time in their history, a factor of world power.

There are those who seek to fight this power by joining the "Right Wing." Certainly this is folly; the Right Wing is one of the pillars of the system; the Left Wing is the other pillar. There is no excuse for the existence of either the "Right" or the "Left" except that the Rothschild Bank has created these two entities to serve its purposes. The Jews thus secure their alliance with the wealthy Goyim, which is necessary to them, since they cannot exercise power alone. The rich of the West have abandoned the Western peoples and have joined forces with the Jews, against their own people. But the rich Jews are also against their own people. We are ruled by corrupt WEALTH, in a manner which is absolutely indefensible.

The constant pretense is maintained that we are menaced by Communism, which is depicted as a menace arising from the slums of "the poor." Generations of whirling and howling dervishes have toiled at the task of creating this valuable illusion, which covers up the skullduggery and nihilism of the ruling class; it also prevents any real opposition to the corrupt rulers from arising. In short it "channelizes" people in directions desired

"This craving for bouquets by Jews is a symptom of racial degeneration. The Jews are worse than my own people. Those Jews who still want to be the chosen race (chosen by the late Lord Balfour) can go to Palestine and stew in their own juice. The rest had better stop being Jews, and start being human beings."

— George Bernard Shaw,
Literary Digest, Oct. 12, 1932.

by the rulers. There is no real opposition today to a corrupt and rotten ruling class which is tootling itself and spaceship earth toward an unprecedented global disaster.

The editors of TRUD have pointed out in a recent issue that American Conservatism produces feeble leaders, such as Robert Welch and Bill Buckley. Why do these men never win any real victories? They do not want victories. They are quite well satisfied with things as they are. The Right Wing is doing today what it has always done from the day of its creation; it is finking for Rothschild Bank Judaism. We are delivered into a complex corruption.

We are in the habit of carrying on controversies about what our rulers "ought" or "ought not" to do. The fact is that men of such contemptible character as those who rule the world today ought not to exist. When I find myself dealing with a person of contemptible character, I simply cut losses against him and refuse to deal any further with him. There is no profit in him. Rothschild Bank Judaism has given us a World Ruling Class of such contemptible character that an intelligent man sees immediately that it is foolish to invest any hopes in them.

The Jewish scholar Moshe Menuhin understands the world crisis better than most anti-Semites. Menuhin's book THE DECADE OF JUDAISM clearly foresees the downfall of modern Judaism. He knows that Jewish schemes will result, not in a system of Jewish world rule, but in a Holocaust. We should not get overly excited about Menuhin's book. It is a good book. It sees clearly and explains lucidly the folly of present-day Jewish folly. A mere good book will have no impact upon events. The disasters which Menuhin has foreseen will proceed to occur.

We are moving toward a disastrous collision between WORLD ANARCHY and the WORLD ORDER envisioned by the Jews. The Jewish power system is intolerable to the masses. It is intolerable because it is based upon cynical contempt for the masses. The only really viable political system is one which works to improve the quality of the

people whom it governs. Today our rulers in the U.S.A. have flouted every precept of legitimate rule. They seek to degrade the quality of the population in order to make them easier to manage. They seek to interbreed Whites and Negroes; they have turned education into mental and spiritual sabotage; the purpose of the educational system is to destroy the minds and morals of youngsters. High schools are being flooded with dope, with the connivance of Federal, State, and Municipal officials. Police forces are under the control of the gangster-politician alliances which govern our cities. The two major political parties are both under the control of the same people and offer no avenue of escape.

Even the military forces are being corrupted. The corrupt Jew machine originated by McNamara and Adam Yarmolinsky dispenses promotions to officers who believe in integration, One-Worldism, and Pacifism. Soon the armed forces will be incompetent to fight anybody except the American people. Our rulers and abusers know that they will need armed force to shove down our throats the plans which they have made for us. They disarm us with gun laws. They corrupt the armed forces, so that the armed forces soon will represent only the usurpers, not the nation and the people. The Armed Forces are coming to be commanded by the same sort of perfumed "pretties" and poops who already have been running the State Department for decades.

We are headed for disaster.

The "Right Wing" poses as a "Savior." It is nothing but a pimp. To be sure, thousands of naive, sincere provincials are lured into it and think that they are "Fighting Communism" or "Saving the Country." Any howling dervish who shouts the standard slogans can earn a pretty good living at this worthless business. The provincial bourgeois think that the "Right Wing" can save their economic hides, which it cannot do. The small business man always thinks of his enemy as being "Labor." In fact, the real enemy of the small business man is the big business man. In the early days of the petroleum industry, it was not "Reds" who drove thousands of small oil companies to the wall; it was John D. Rockefeller, who also supported the Communist Revolution in Russia, along with his Jewish friends in New York. There is no salving "Free Enterprise System." The big-time "Free Enterprisers" are and always have been the principal financial backers of world Communism.

We are headed toward a spectacular collision between world order and world anarchy. Good men are normally on the side of order; but today the world order, run by Jews and their Goy running-dogs, is too corrupt to be upheld successfully. Therefore, the overwhelming probability is that anarchy will prevail, and that a great global disaster will occur. Any really good solution of the world's problems lies on the far side of a great disaster. The prospect for the near-term historical future is that the forces of anarchy (not Communism) will rise up and destroy a corrupt world order. There are no forces of world order capable of withstanding such an assault today. What do we really have? We have a ruling class of Jews and Judaized Goyim who are morally mush-rotten to the core. They are mere historical garbage. We have our churches, which long ago degenerated into mere Middle Class clubs. We have "the economy," which, if the truth be told, is already bankrupt.

Then we have the Right Wing. It would be possible to discuss the Right Wing endlessly; but Jesus discussed it quite adequately in one of His parables. The barren tree which produces no fruit is cut down and thrown into the fire. In seven decades the Right Wing has produced no real political fruit. Now we hear the steps of the axman

(Continued in next column)

"Give me the power to issue a nation's money, then I do not care who makes its laws."

— Mayer Anselm Rothschild.

Bismarck Told the Story in 1876

Bismarck knew the truth and revealed it in 1876 to a German, Conrad Siem, who published it in La Vieille France (No. 216, March, 1921), forty-five years later.

"The division of the United States into two federations of equal force was decided long before the Civil War by the high financial power of Europe. These bankers were afraid of the United States, if they remained in one block and as one nation, would attain economical and financial independence, which would upset their financial domination over the world. The voice of the Rothschilds predominated. They foresaw tremendous booty if they could substitute two feeble democracies, indebted to the Jewish financiers, to the vigorous Republic, confident and self-providing. Therefore, they started their emissaries in order to exploit the question of slavery and thus to dig an abyss between the two parts of the Republic.

"Lincoln never suspected these underground machinations. He was anti-slaverist, and he was elected as such. But his character prevented him from being the man of one party. When he had affairs in his hands, he perceived that these sinister financiers of Europe, the Rothschilds, wished to make him the executor of their designs. They made the rupture between the North and the South imminent! The master of finance in Europe made this rupture definitive in order to exploit it to the utmost. Lincoln's personality surprised them. His candidature did not trouble them; they thought to easily dupe the candidate woodcutter. But Lincoln read of their plots and soon understood, that the South was not the worst foe, but the Jew financiers. He did not confide his apprehensions, he watched the gestures of the Hidden Hand; he did not wish to expose publicly the questions which would disconcert the ignorant masses.

"Lincoln decided to eliminate the international banker by establishing a system of loans, allowing the States to borrow directly from the

Lawrence Malkin, world known journalist writes from London under a headline which reads "The House of Rothschild is still Key to Jewish Capital." He reveals that an American by the name of Peter Fleck of New York has been taken into the London partnership that operates on Wall Street. people without intermediary. He did not study financial questions, but his robust good sense revealed to him, that the source of any wealth resides in the work and economy of the nation. He opposed emissions through the international financiers. He obtained from Congress the right to borrow from the people by selling to it the 'bonds' of the States. The local banks were only too glad to help such a system. And the government and the nation escaped the plots of the foreign financiers. They understood at once, that the United States would escape their grip. The death of Lincoln was resolved upon. Nothing is easier than to find a fanatic to strike.

"The death of Lincoln was a disaster for Christendom," continues Bismarck. "There was no man in the United States great enough to wear his boots. And Israel went anew to grab the riches of the world. I fear that Jewish banks with their craftiness and tortuous tricks will entirely control the exuberant riches of America, and use it to systematically corrupt modern civilization. The Jews will not hesitate to plunge the whole of Christendom into wars and chaos in order that 'the earth should become the inheritance of Israel.'"

approaching. He is going to cut down the barren tree, so that it may be thrown into the fire. The American Right Wing is incapable of significant action; it is in the same business as the Left Wing. It is good for nothing except kill-time-dead.

Inexorably, the Age of Rothschild Bank Judaism is approaching its disastrous end. It will drag to destruction also those Goyim who have been allied to the Jews. The destruction will begin when the forces of anarchy have gained political control of nuclear weapons. It begins with WAR, and be sure that the Four Horsemen will ride.

Those who wish to daydream about a happier recent past call themselves "Conservatives." Those who really think of the future think in terms of wresting the survival of humankind from the forces of nihilism in the midst of a great disaster. This is the real nature of the problem which will confront us in the near-term historical future. If you do not like it, you should have arranged to have been born into some other age.

considerably more successful than Ford in putting his idea over in his own country, but the defeat of Germany in World War II has obscured the work done by Krupp. It is now quite in order to study the actions of Krupp in order to understand the present world crisis. The enemies of Krupp might profit as much from the study of his career as his friends. We are not dealing here with mere partisan controversy, but with something far more fundamental. We are dealing with the question of whether or not the industrial civilization is to survive. What was it that Krupp fought? What were the concepts which he sought to perpetuate? Krupp was one of the leading industrialists of the world. The name of his firm is associated with the manufacture of arms; yet it also manufactured many other things. Krupp diesel motors throbbed in the engine rooms of ships around the world. The finest industrial machinery in the world bore the KRUPP name. It is important to understand that Krupp did not believe in the predominant system of industrial technics which prevails in the world today. He believed that it could only lead to the downfall of the industrial civilization. Krupp sought to work a major revolution in industrial technics. He fought the old system bitterly for many years. He sought to displace it with an entirely new system.

What was it that Krupp fought?

The system which prevailed in Europe,

"As for businessmen, I could persuade a capitalist on Friday to bankroll a revolution on Saturday that will bring him a profit on Sunday even though he will be executed on Monday."
— Saul Alinsky, professional radical and self-proclaimed leader of the "poor."

from the middle of the Nineteenth Century onward, was fundamentally a Jewish system; but it was not rooted in the old Jewish religion; it was the product of a new type of Jewish intellectual who appeared in Europe in the Nineteenth Century. In a specific way, this Jew was a GERMAN Jew. He was not a believer in the old Jewish religion; he was an Apostate from it. He was the new "Rothschild Bank Jew." Jewish intellectuals achieved "Supremacy" in the intellectual life of Europe in the Nineteenth Century. It is not to be thought that they engaged in artistic and literary activity simply for its own sake, or merely to "express themselves." They were the authors of the predominant and accepted system of industrial technics. They devised the intellectual machinery used to regulate the labor supply, to regulate wages, prices, and profits. Marxism was the product of the great Capitalists, especially the great banks, and in particular the Rothschild Bank. The workers of Europe were herded into Marxist parties and Marxist labor unions by the Jewish intellectuals. These new "Labor" movements were quite simply a part of the management system. The American worker tends to equate labor unions with higher wages; but this is simply because the labor union movement in America has arisen at a time when a policy of currency inflation has been in effect. The real function of labor organizations is to fix wages, prices, and profits at whatever level Big Business desires. Labor movements can be used to hold wages down as well as to raise them. The real purpose of labor organizations is to insure that the worker is subjected to rational technical organization; in other words, to meet the requirement that everything must be organized; nobody may be left free. Frederick Georg Juenger discusses this subject thoroughly in his book **THE FAILURE OF TECHNOLOGY**. In the U.S.A. we have been led to believe that technology is a great "Horn of Plenty," forever pouring upon us an endless flow of material blessings. It is also a system of political authority; in short, it is **GOVERNMENT**. Is it **LEGITIMATE** government? If it is not legitimate, it will fall. Every competent historian agrees that an authority-system

which is not legitimate inevitably will fall. The industrial expert Peter F. Drucker raised this question some years ago in an article in **HARPER'S Magazine**, entitled **IS MANAGEMENT LEGITIMATE?**

Gustav Krupp had already asked himself this question many years before in Europe. Was European management, the system devised by the Apostate-Jewish and Marxist intellectuals, really legitimate? To ask the question was to answer it. A mere glance at the system revealed its rip-roaring savagery, its utter charlatanry, its preposterous instability, its utter fraud. The system had driven a deep rift of class hatred into the whole structure of the European civilization. The pretense was maintained in the popular press that the whole working class had turned into a race of mad dogs, suddenly and violently possessed by the instinct for revolution. In fact, the industrial working class was composed mostly of bewildered peasants, suddenly dumped into the new materialistic industrial cities. They were entirely incapable of coping with their own pressing personal problems. Certainly they had no time to think of starting a revolution. Marxism was simply a managerial tool of the great Capitalists, who used it with ruthless savagery to hold wages down and profits up. The Marxist parties of Europe were simply puppets, and the puppet strings led nowhere except into the posh Board Room of the Rothschild Bank. This was the real foundation of Jewish financial and intellectual power in Europe. It was not legitimacy; it was treachery, charlatanry, duplicity, and fraud.

Yet this illegitimate system was so successful in its complete control over the European working class that plans were laid to extend it around the world. The "New Deal" in the United States represented the extension of it to America. The Russian Revolution represented the extension of the same system to Russia. It is important to understand that the so-called "Russian Revolution" was made by the great Western Capitalists, although it has now eluded their control. There is no proletarian revolution, never has been any proletarian revolution, never will be any proletarian revolution. So-called proletarian movements always do the work of the big money. The aim of the Russian Revolution was simply to turn Russia into a "Colonial Area" subject to the control of the great banks in New York. Russia today is not under the control of the great banks, and this is why the press of New York constantly attacks Russia. "True Communism" in Russia would have to be a system which would make Russia responsive to control by the five great banks in New York which financed the October Revolution in the first place. V. I. Lenin said, "Socialism would have been impossible without the help of the great banks." Leon Trotsky was a tool of the New York banking community. He was related by marriage to the banking Warburgs. Communism and banking are inseparable. What we have here is an effort on the part of the great Capitalists to whoremonger with the naive loyalties of the working people of the world. Such a system represents utter moral disaster. If it continues to prevail, the industrial civilization can only fall from one level of chaos and disaster to another until it is utterly destroyed.

Gustav Krupp understood this well. He set out to devise a new system of industrial government which would be legitimate. Krupp's effort was backed by brilliant intellectual concepts. Unlike our American Conservatives, he did not attempt to base his political reforms upon empty-headed slogan-shouting. German intellectuals produced a series of brilliant books on this subject. Oswald Spengler's **MAN AND TECHNICS** expounded the basic theories upon which Krupp acted. Spengler worked closely with Krupp and other German industrialists to develop a new concept of industrial technics to replace the corrupt and degenerate "Right-Left System" which had dominated Europe for nearly a century. The Jewish press in America attempts to relegate Krupp's thinking to the "Extreme Right." It really belonged nowhere within the Right-Left orbit. It went all the way back to the bedrock of "home truth." It was entirely beyond the ken of shallow "Right-Left" thinkers.

It was, haplessly, also beyond the ken of the common man in Germany. How could Krupp popularize it? This is one of the most painful problems of history. How can high-level intelligence communicate with the masses and secure their agreement to wise and necessary measures? Krupp was a brilliant industrialist, but he was not a very good speaker. Oswald Spengler was a great writer, a towering intellectual giant; but he was not a very good speaker either. It takes a speaker, rather than a writer, to communicate a political idea to the people. Krupp went looking for a good speaker.

He found a speaker named Adolf Hitler. Hitler was beyond doubt one of the greatest orators who ever lived. I have often suspected that there was not much else to him. He was a highly specialized creature. As a decision maker, he was a failure. In matters of military strategy he overruled the German General Staff, who certainly were his betters in such matters. Hitler was not a great political thinker. In fact, he was nothing except perhaps the greatest orator who ever walked the earth. He expertly obtained the undivided attention of his audiences. He held them transfixed while he communicated his ideas to them; or, rather, while he communicated the ideas of Gustav Krupp and Oswald Spengler to them. Hitler had few profound ideas of his own. As long as he was the mouthpiece for the ideas of Gustav Krupp, he was great. By 1943 Krupp had become senile and ill. Hitler was on his own. On his own, Hitler did not do so well. Jewish propaganda has represented Hitler as being a savage little hate-peddler. The speeches he made were not hate speeches. Rather, Hitler

"Mr. Harriman and the New York financiers are more or less gentile fronts for Messrs. Kuhn Loeb & Co. They were granted enormous concessions amounting to thousands of millions of dollars by Lenin and Trotsky for the industrialization of Russia." (Averill Harriman was Special Advisor on Foreign Affairs to President Truman).
— The Social Creditor, England, March 1, 1941.

sought to heal the wounds of class hatred in Germany, to eliminate the evil effects of Marxism, to expose the charlatanry and fraud which had been worked against the working people of Europe. I do not have to depend upon Jewish propaganda to know what Adolf Hitler said in his speeches. Many long years ago I sat in the Sports Palace in Berlin and listened to what he said.

What did he say? What was the real basis of the Nazi political idea?

In America, we live with the fiction that we have two separate entities, called "Government" and "Business." This is mere charlatanry. Gustav Krupp knew that when you run a vast industrial system which has power over the lives of thousands of people, you are engaged automatically in **GOVERNMENT**, not merely in "private enterprise." Krupp undertook to put industrial technics on a legitimate basis. Henry Ford once undertook the same thing in America. Both Ford and Krupp ultimately were defeated. The defeat of legitimacy in industrial technics may be a savage portent for the future of the world. It almost insures the destruction of the industrial civilization. Hitler, as the mouthpiece of Gustav Krupp, propounded a political synthesis which recognized the fact that technology is **GOVERNMENT**, and not merely "private enterprise." There was to be a sound and honestly-proclaimed relationship between technological authority and the system of political government.

The defeat of Germany in World War II ended the effort to develop a really legitimate system of industrial technics. Oswald Spengler's book **MAN AND TECHNICS** stands as a monument to perhaps the last real effort to save the industrial civilization from self-destruction. In the wake of World War II the rabble of Jewish intellectuals once again swarmed around the world, howling their worthless Marxist drivel. By this time, however, it was impossible really to go back to the old Nineteenth Century "Right-Left System." The working class no longer believed in the Marxist Utopia. In reality the world was divided into two hostile camps.

(Continued on Page 4, Column 1)

Why Great Capitalists Support Communism

(Continued from Page 3, Column 3)

This is the real measure of the failure of Marxism. The purpose of Marxism was to create a unified world, under one management. It would be possible to trace in infinite painful detail the failure of Marxism. We could explore forever the labyrinthine intrigues of Trotsky and Stalin. There is little profit in such exploration. Marxism failed because it is not legitimate; any historian will tell you quickly that any system of authority which is not legitimate will fail.

Russian policy today is not based upon Marxism; it is based upon the failure of Marxism. In order to understand the abyssal depth and magnitude of the failure of Marxism, we must understand clearly the original purpose of Marxism in Russia. The purpose of Marxism was to subjugate Russia, to make Russia entirely responsive to control from New York. It must be obvious to anyone today that Russia is not responsive to control from New York. The New York Times howls. TIME Magazine moans. U.S. NEWS AND WORLD REPORT says that "The Russian people should rise up and take their government into their own hands, as they did back in 1917." Jewish students gallop around New York with Russian-language textbooks under their arms; they are being trained to be the new cadre of "Revolutionists" in Russia. It is all vain, worthless, futile, a mere nursing of the forlorn hopes of yesteryear. Russia cannot be lured back into the kennel. The American Communists and anti-Communists alike labor to create the image of "Red Russia." They claim to "fight" each other, but they secretly work together. They work at the system of corrupt, rotten, and decadent technics which Gustav Krupp sought to replace with legitimacy in Germany; which Henry Ford fought tooth and nail in America.

Some of the anti-Communists do not like COMMON SENSE. They gallop around the country whispering that COMMON SENSE has "sold out." Conde McGinley sold out long ago; he sold his life to warn the American people against corrupt Jewish intellectual machinations. We are still in the same business. IF WE REALLY WANT TO FIGHT COMMUNISM IN AMERICA, WE MUST DEMAND THAT THE GREAT AMERICAN CAPITALISTS STOP SECRETLY SUPPORTING COMMUNISM, WHILE AT THE SAME TIME THEY MOUTH PIOUS "ANTI-COMMUNIST" SLOGANS. A. K. Chesterton has discussed this subject brilliantly in his book THE NEW UNHAPPY LORDS. The real headquarters of the Conspiracy are in New York; Moscow and Peking are merely branch offices. Rather, Moscow WAS a branch office until it declared its independence and virtually declared war upon the old headquarters in New York. Peking is still under New York control. The Maoist Revolution in China was the creation of the U.S. State Department, acting in obedience to the MONEY MEN of New York.

The kind of Capitalism which secretly supports Communism is not the only possible kind of Capitalism. Henry Ford entertained the concept of a legitimate Capitalism, which would exercise its powers in an open and legitimate manner, and would have no great, guilty secrets. Gustav Krupp certainly was one of the world's greatest Capitalists; yet he rejected the whole basis of industrial technics which dominates the Capitalist world today. Krupp insisted upon being a MAN, not merely a pawn in the class-interest game.

Unhappily, the funny little men who run the American system today are not men of any such caliber. They are completely subservient to the Jewish power game.

Today, the so-called "anti-Communism" of the American Conservatives is largely a worthless fraud. It does not penetrate deeply into the realities underlying World Communism. It holds itself carefully to a shallow level. It is careful never really to hurt Communism. It contents itself with worthless slogan-shouting, empty charlatanism, and the effort to use a myth made of whole cloth as a political lever.

Henry Ford Sr. one of the great capitalists who fought Communism tooth and nail, once said: "The only statement I care to make about the PROTOCOLS is that they fit in with what is going on. They are 16-years-old, and they have fitted the world situation up to this time, THEY FIT IT NOW."

American "anti-Communism" has come to its final ignoble end in Vietnam. We have moved into a small Southeast Asian nation and have carried on a military "make work" project for a number of years. Thousands of people have been killed. These include forty thousand young Americans in the prime of life. But we should not forget also the thousands of little brown-skinned people who have been killed. The Vietnamese are a charming people. I am no newcomer in Vietnam. I first went there thirty years ago when Ho Chi Minh was a stool pigeon for the French Colonial Police. I have known the Vietnamese a long time. A more utterly charming kind of people you could not hope to find. They were savagely oppressed and exploited by the French colonial regime. Now they have been subjected to the maniacal corruption of American "anti-Communism." The American Establishment does not intend to allow anybody to fight a real battle against Communism. The Vietnam war could have been won in six weeks. It took real genius to prolong it over the years and kill untold thousands of people. Now we are going to pull out of Vietnam without having accomplished anything. When the braying jackasses of American "anti-Communism" gallop around the American landscape and fight their no-win war against Communism, nobody is in danger of dying of anything except boredom and disgust. In Vietnam thousands of people have died of bullet wounds. This is the corrupt action of a rotten "Establishment" which has secretly promoted Communism around the world for seventy years, all the while mouthing pious "anti-Communist" phrases. This is not real "anti-Communism." This is the lowest form of Charlatanism; this is THE UNPARDONABLE SIN, the sin against the Spirit, the Evil for which there is no pardon either in this world or the next.

Charges of "sell-out" are resounding through the back stairs of American Conservatism today. It is being charged that Barry Goldwater "threw" the 1964 election, or that Robert Welch has "sold out to the enemy." The real essence is not that anybody has sold out to anybody else; this is simply the way the system works. Everything must be "channeled." There are "Left Wing" leaders who channelize the working class and the discontented; there are "Right Wing" leaders who channelize the prosperous and successful. We are being governed today, not by Constitutional government, but by technology. What we have is not "private enterprise" but "private government" by the great banks, which use Marxism and anti-Marxism alike to rule us through a managed interplay between "Right" and "Left." This system of government is not legitimate, and a system which is not legitimate will fall. It will fall even if it produces the chimera of "prosperity."

Today the life of the American civilization hangs in the balance. It must either become legitimate or else it will die. The mere "Right Wing" promises nothing in the way of real legitimacy. The "Right Wing" and the "Left Wing" are merely the byproducts of "Rothschild Bank Judaism," of Jew Marxism. There is no longer any real political

profit to be taken from the "Right" or the "Left." These quaint old Nineteenth Century antiques should be put into dead storage and left there. If we continue to cling to them, we shall only prove that we have become a politically worthless nation. We shall be only the tail of the kite of Jewish policy which is failing around the world. The Jewish policy which is failing is not really Jewish in the sense of being rooted in the ancient Jewish religion; it is merely APOSTATE Judaism, and in fact is as much against the old Jewish religion as it is against any other kind of religion. It uses the embalmed corpse of the old religion as a mask for thoroughly secular rackets. The Marxist Jew is not a religious Jew; he is not the same as the Jews of the Middle Ages. He is the GERMAN Jew, the "Rothschild Bank Jew." The GOTTERDAMMERUNG show-down between Germans and Jews which occurred in the 1930's and 1940's was primarily a rivalry between German legitimacy and Jewish Apostasy. The apostate Jew was the inventor of a system of opinion-management and industrial technics which dominates American Capitalism today. Not all Capitalists have been ecstatic about this system. Henry Ford and Gustav Krupp alike saw clearly the folly and fatality of it. It is very difficult to make a popular political cause of the reform of technics, because the basic matters involved are largely beyond the ken of the average man. But unless this is done, there is no doubt about what the future holds. The industrial civilization will fall from one level of chaos and disaster to another until it is utterly destroyed.

Frankly, American Conservatism is not well-fitted to undertake such a task today. It is too often satisfied with shallow slogan-hawling, empty catchwords, and narrow self-interest. Where is YOUR Gustav Krupp? Where is YOUR Oswald Spengler? Where are your great men? Do not again parade before us the empty humbugs of yesteryear and try to tell us that they are "Great Conservatives." They are merely great gasbags. They are good for nothing except to make speeches before meetings of B'nai B'rith promising that "Israel will not become another Czechoslovakia." This too is mere gasbaggery, as the Jews will learn to their sorrow. There is no humbug worse than an American humbug; we have come to the time when solid intellectual substance must take the place of empty humbug, or else we are finished.

Under the caption "These are times that try men's souls" our May 1 issue contained the statement: "their 30 cent dollars won't go any further than ours." One of our readers tells us, according to Dan Smoot, our present dollar is worth 15 or 16c of the 1934 dollar. Thus we have only half of what we THOUGHT we had!
